## USAGE

Rustica II is recommended for exterior walls\*, interior walls, and light-duty counters. Rustica II has the character and look of many low-fire, handcrafted tile lines. However, Rustica II differs due to its porcelain tile body and high-fire process. Because of this difference, Rustica II is stronger and more suitable than its counterparts that are similar in character and glaze finish. Gloss glazes are more subject to scratching. Darker colors may be especially susceptible to scratching in handling and installation, as well as use. Some deeper colors may develop shadow stains from kitchen acids.
