USAGE & INSTALLATION

This series is suitable for floors, walls and counters. Even though this series is honed, it still needs to be sealed and maintained like all natural stone. Please note that Classico, like all honed stone, even when sealed, is subject to etching from even mild acids. (e.g. lemon juice). Expect a wide variation in color.

CALACATTA ORO POLISHED MOLDINGS

The Calacatta Oro is a rare and very sought after marble that is noted for its warm, creamy beige, grey and gold toned veining. Calacatta moldings can be used with Impronta Marmo D wall tile, as well as other tile lines. Even though this series is polished, it still needs to be sealed and maintained like all natural stone. Please note that the moldings, like all stone, even when sealed, are subject to etching from even mild acids, (e.g. lemon juice). Expect a wide range in variation of color.
