Vanity Collection

The Vanity Collection is perfect for vanities, bar tops, fireplace hearths, or any other project where a full slab would exceed the budget. This collection is an economical, green-friendly (limited waste), and simple approach to meet your projects needs. The dimensions of the slabs range in width (25" to 35") and in length (up to 120") depending on the material.

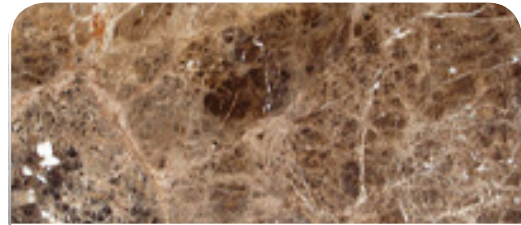

Please feel free to contact our slab department to inquire about current available sizes and materials.
